

790

## Fold-Down Utility Shelf

### Model 790 – Surface-Mounted

#### Product Materials

**Shelf and Mounting Bracket:** Heavy-duty zinc die casting with chrome-plated finish. Shelf has textured non-slip surface.

#### Operation

Hinged shelf stores in vertical position, folds down for use. A moment load of 1 pound at 10" from pivot point required before shelf folds back up. Automatically returns to upright position when objects are removed. Holds up to 150 pounds.

#### Installation

Verify all rough-in dimensions prior to installation. Secure to wall or partition using mounting screws (included) at holes provided. Position in line of travel of toilet compartment door. Allow 14 7/8" vertical clearance for storage.

#### Guide Specification

Fold-down utility shelf shall be fabricated of chrome-plated, heavy-duty zinc die cast with textured shelf area. Shelf shall automatically return to upright position after use.
