- Descaling system

Technical data:

- Max Flow rate for each rain function: 2.5 gpm
- minimum working pressure = 29 Psi
- maximum working pressure = 58 Psi
- Weight: 27 lbs

Technical data:

Plumbing:

- Water softening device recommended
- For choosing the drainage, take into consideration the output of items in the shower, the specific demand needs to be assessed.
- Supply line (hot/cold): 2 x 3/4"
- Must be installed with three-way diverter 35 104 970-90 0010 (rough included)
- Three-way diverter ensures that the product does not exceed the max. flow rate of 2.5 gpm at any setting. It does not permit the use of two functions simultaneously.
- Three-way diverter trim is sold separately
