## Schwinn Originals – Timeless Classics

Hardware has always been an important detail of the work of many designers and architects from around the world. With each period and era the design expression of hardware has changed but the functions have always stayed the same. Each piece in the Schwinn Originals collection combines beauty and usefulness in a unique way. The language of design and architecture is constantly changing and evolving. The best work however is timeless. That timeless quality is what unites the diverse pieces in the Schwinn Originals collection.

All Schwinn Originals are licensed reproductions based on original examples or drawings of the designs. Careful modifications to scale, dimensions or material were only made when necessary because of changes in use, material, manufacturing technology, or industry standards.

## Schwinn Originals – Only from Schwinn

Founded in 1932 as a workshop in Ober-Ramstadt, Germany (a small town near Frankfurt) using synthetic resin to make furniture handles and knobs, Schwinn today is a global leader in the technology, design, manufacturing, and service of furniture hardware. Schwinn Originals are exclusively licensed to Schwinn. Every piece is manufactured to the highest standards and with great care to match the timeless quality of the work of its designer.

## Max Bill

*Beauty from Function, Beauty as Function*

Max Bill (1908-1994) was a Swiss architect, graphic designer, product designer, artist, sculptor, politician and teacher. First trained as a silver smith before studying at the Bauhaus Dessau, he taught in Zurich, Hamburg, Berlin and was a founding member and director of the Ulm School of Design. His work is included in major art museums around the world and many of his designs are still in production, including his watches for Junghans as well as the Ulm stool.

## Nanna Ditzel

*Groundbreaking All-around Modernist*

Nanna Ditzel (1923-2005) was the most versatile and creative female designer that Denmark produced in the 20th century. She designed furniture, jewelry, tableware and textiles. She shaped her pieces using an equally astonishing variety of materials, from wood and wicker, to silver, ceramics and fiberglass. In 1959 Ditzel produced the "Hanging Chair." The piece, suspended from the ceiling by a chain, became a favorite for fashion shoots and an icon of the 1960s.

## Egon Eiermann

*Proportions, Precision and Structural Clarity*

Egon Eiermann (1904-1970) was a renowned, multi award-winning German architect, furniture designer and teacher. His work is defined by simplicity and by a design approach that always makes a product's function clearly visible. He studied architecture in Berlin before moving to Karlsruhe in 1947 where he was Professor of Architecture at the Technical University. The German pavilion at the Brussels World Expo and the Berlin Memorial Church are among his most famous buildings.

## Michael Graves

*From Modern to Postmodern*

Michael Graves (1934-2015) started as a professor of architecture in 1962 at Princeton University and spent much of the late 1960s and early 1970s designing modern residences. In the late 1970s, Graves shifted away from modernism to pursue Postmodernism and New Urbanism. Postmodernism allowed Graves to introduce his humanist vision of classicism, as well as his sense of irony and humor. He also designed numerous household products for Target and other corporations. Most famous is his 1985-designed iconic stainless steel tea kettle featuring a red bird-shaped whistle at the end of the spout.

## Bodil Kjaer

*The Essentialist*

Bodil Kjaer (1932) practised as an architect, designer and planner from her own offices in Copenhagen and London. Before becoming a tenured professor at the University of Maryland, Bodil Kjaer worked for many years in teams of engineers, sociologists and organization planners to create healthy and flexible work environments for employees in factories, offices and universities.

## William Lescaze

*Pioneer of Modernism in American Architecture*

William Lescaze (1896-1969) was a Swiss-born American architect, city planner, industrial designer and teacher. After studying architecture in Switzerland, he relocated to the United States and formed a partnership with George Howe in 1929. In 1932 at Howe & Lescaze he designed the PSFS building in Philadelphia—the first international modernist skyscraper. In 1935 Lescaze established his own office in New York. His work includes the CBS building on Sunset Boulevard in Los Angeles and the Williamsburg Houses, a groundbreaking 20-building modernist housing project.

## Paul McCobb

*American Cool*

Paul McCobb (1917-1969) was one of the leading furniture designers on the American design scene in the 1950s and 1960s. Over a timespan of twenty years he designed an impressive range of multi-functional furniture, accessories and textiles, as well as several notable interior design projects. Inspired by his New England upbringing and influenced by Shaker Design, McCobb combined slender lines with sculptural forms. Paul McCobb was the recipient of MoMA's Good Design Award five times between 1950 and 1955.

## Jasper Morrison

*Super Normal*

Jasper Morrison (1959) strives to create good examples of understated, useful and responsible design. Since his start in 1986 and early work for FSB and Cappellini, he became one of the most successful industrial designers of the past few decades. Together with his colleague Naoto Fukasawa, he defined the term “super normal,” which in his opinion answers the question of what “good design” should really be. His designs are represented in New York’s Museum of Modern Art and other prominent museum collections around the world.

## David Allan Pessa

*New Studio*

David Allan Pessa (1964) is a designer who “constantly strives for a clean, reduced geometry without extraneous details” embracing modernist design principles and sensibilities. In his work, details like hardware are always carefully considered because they are what makes the design. His work for clients such as Herman Miller, Steelcase, Geiger, Darran and Tuohy spans over 30 years. He has received numerous awards and has licensed over 350 original furniture designs.

## Dieter Rams

*As Little Design as Possible*

Dieter Rams (1932) is a German industrial designer closely associated with the consumer products company Braun and the functionalist school of industrial design. His belief in “less but better” has imbued his work with a timeless quality that continues to influence consumer product design to this day while securing Rams enduring worldwide recognition and appreciation.

## Jens Risom

*A Danish Modern Pioneer*

Jens Risom (1916-2016) was a Danish-American designer and businessman who took the USA by storm from the 1940s onward. He was one of the first designers to introduce modernist aesthetics and values of function and craftsmanship to the United States. Risom believed that design should be subtle and not take centerstage. Today many of his furniture designs are considered modern classics. Examples of Risom's designs can be seen in leading design museums around the world.

**August Schatte**  
*Anonymous Company Design*

August Schatte was an aluminum die cast manufacturer in Germany. The hook designs included in Schwinn Originals are based on a vintage coatrack that was probably a company design from the 1940s.

See pages 32-33 for details.

## Create your own custom hook rack.

All Schwinn Originals hook designs can be mounted on the Schwinn Hook Rack in multiples of four to create a unique modular hanging solution.

### Step 1

Choose your hook style and finish; four hooks needed per hook rack.

### Step 2

Choose your hook rack color; silver or anthracite.

### Step 3

Select the appropriate hole profile for your hooks; single hole or C/C 20 mm.

Once your order is placed (4 hooks plus 1 hook rack), Schwinn will do the assembly and ship your finished hook rack ready for installation, mounting hardware included.

### Schwinn Item 88947 Hook Rack

## General Information

### 1.

Terms: Net 30 days on established credit.

### 2.

Shipping and handling: all orders are shipped FOB Scottsdale, Arizona. Standard service level is ground shipping. Fees apply. Third party and rush shipping available. Please provide account number and specify service level. Drop shipment available upon request.

### 3.

Returned goods: merchandise may be returned only with our approval within 30 days of receipt of merchandise. A Schwinn issued RGA number must accompany all returns. Returns must be sent freight prepaid unless we have agreed in writing to issue a call tag.

### 4.

Minimum order: one (1) piece. A \$10.00 handling fee applies to orders valued at less than \$50.00 net.

### 5.

Samples: up to three samples (three different items) are provided free of charge. Shipping charges apply. Sample orders from \$25.00 to \$50.00 net will be memo invoiced and credited to a subsequent order of \$250.00 or more placed within 90 days. Sample orders of \$50.00 or more will be invoiced at suggested retail prices minus applicable discount.

### 6.

Prices: prices in this catalog are suggested retail prices per piece and are subject to change without notice.

### 7.

Claims: shortages, damages or discrepancies between ordered and received items of any kind must be reported to Schwinn within 48 hours from the date the shipment was received. Schwinn is not responsible for damage to merchandise caused by the delivery carrier.

### 8.

Our craftsmen and finish experts strive to maintain consistent quality in all of our products. Variations in finish color, sheen, and texture occur naturally and do not constitute a defect. The specific range of variation depends on the finish process and material. We do not guarantee the match of a finish to a sample, different model, or different production runs.

Leather is a natural product from animal hides and therefore differs from hide to hide. Variations in the texture of the leather should not be considered a fault but inherent of the natural beauty and uniqueness of the leather. As every piece of leather is different and may accept dyes a little differently during the tanning process, this may cause irregularities in the consistency and depth of the color. Markings such

as dents, scars, scratches, wrinkles or blemishes occur naturally in leather. These irregularities should not be considered as a defect but rather indications of genuine leather.

Stainless steel grade 303, the grade commonly used in cabinet hardware for its machinability, should not be exposed to marine or other similar environments, as this will result in rapid pitting corrosion. Schwinn Performance Finish products provide maximum corrosion resistance, chemical resistance, as well as abrasion resistance in addition to their antimicrobial properties.

### 9.

Warranty: Schwinn warrants that its products are free from defects in workmanship and materials. Schwinn is not responsible for failure due to incorrect installation, failure to follow mounting instructions or use of product in a manner for which it was not designed. Failure due to abuse, misuse or accident, any failure due to dismantling, alteration, or repair by any person not authorized by Schwinn. Failure due to incorrect maintenance. Fair wear and tear. Cost of removal, installation and freight. Deterioration and discoloring of finishes over time due to climate conditions.

### 10.

Liability: Schwinn's liability hereunder is limited to the purchase price of the product. In no event shall Schwinn be liable for any consequential, indirect, incidental or special damages of any nature arising from the sale or use of the product, whether in contract, tort, strict liability or otherwise.

### 11.

Screws: all our handles and knobs require the use of metric screws. If "cut-off" screws are used: these screws can be cut at specific increments to accommodate the most common panel thicknesses. Please use end cutting or side cutting pliers and cut at specific increments only. Improperly cut screws will damage the tapping in the handle or knob.

### 12.

Care of hardware: please use a damp, non-abrasive cloth or sponge and mild soap only.

### 13.

Displays: a high quality display program for showrooms with sample boards for wall or free-standing presentation is available upon request.
