1. Check local codes for maximum height above the floor requirements.
2. Apply the mounting template sticker to the frame at mounting height.
3. Hold the latch in place and test to see if door will contact the latch as shown.
4. Mark the screw holes for drilling and drill  $\frac{5}{32}$ " pilot hole.
5. Mount the latch on the door frame, on top of the template, with the #12 screws provided using a Phillips screw driver.
6. Test the latch to ensure that it operates properly in blocking access to the room.
7. Test the latch to ensure that it disengages when a completely opened door moves to a shut position in the door opening.
